SUMMARY

Believable, Natural, Enthusiastic and Diverse are just a few of the words used to describe my vocal range. I am a professional Voice Over Artist with over 10 years of theatre and on-camera experience. I have a voice perfect for Commercials and just as flexible for Narration and Animation. Freelancing for my first year and a half of Voice Overs, I have already worked with some of the biggest names in education and technology, like Discovery and Microsoft. With over 15 years of experience in High-End customer service, I have carried over my Client First mentality along with my deep value in Prompt Communication. You want to bring your project to life – let me give it a voice.
